

Fifth Grade Science Learning Targets 2015-2016 REGIONAL SCHOOL UNIT #22

RSU #22 is committed to the optimal learning of all students. As RSU #22 continues to move towards meeting 2018 graduation expectations, we have elected to look at proficiency learning targets K-12. Rather than only the high school being responsible to report student proficiency, we have created some initial targets at each grade level. We know that some children may be able to meet standards beyond the targets listed at the grade level. We also know that some students will need more time to meet the expectations.

Units and Standards:

Matter

Matter is Everywhere

- Understands the relationship of the motion of particles to the states of matter for gases, liquids, and solids

Ecosystems

Basic Needs

- Understands the differences between multi-cellular and unicellular organisms

Earth Systems

Earth's Systems

- Understands how erosion and sedimentation (deposition), cause surface changes

Space

Gravity

- Understand solar eclipse and lunar eclipse.

Other units and associated standards may be introduced during the 2015-2016 school year.
