

Summer Basketball 2018

We have another busy schedule planned including games and practices. We are hoping to continue our success here at Hampden Academy where we've made 15 consecutive tournament appearances. This is the time of year to improve your skills in preparation for the coming season.

There will be a fee of \$60.00 dollars to all participants. This money helps pay our entry fees to the Hermon and Bangor summer leagues. **Please make checks payable to Hampden Boys Basketball.**

The first part of program will include Skillz and Drillz. These are planned practices where everyone participates. This will include an hour of fundamentals along with some team concepts. We will also scrimmage for approximately 30 minutes during these practices. These will take place on following dates (June 18, 19, 21, 25, and 28 from 9-1030am).

We will play in two different leagues again this summer. Our older group will play a 16 game schedule of home and away games vs other local schools, along with one weekend tournament in Bar Harbor. Our younger players will participate in the Hermon League which will include a 10-12 game schedule. All teams will be coached by a current coach in our program. Schedules will be passed out at Skillz and Drillz on June 18th. It is important to understand that some Juniors may be asked to play in the Hermon League and some underclassmen may be asked to play in the Bangor League. This is determined by the coaching staff and what's best for the player and the program. Attendance at all of these activities is optional.

We are hoping players take advantage of these opportunities, so that they improve and help build a stronger program here at Hampden Academy.
